

Company Honors B.C. Contractor

Every treeplanting contractor and many forest product companies dream of stable, long term contractor-company relationships. Seldom has it been achieved in the forestry business.

That is why it was particularly gratifying when Canfor Ltd of Vancouver recently presented a commemorative plaque to Loki Reforestation Ltd for having planted 10 million trees for the company.

Wayne Cochrane, reforestation specialist for Canfor's Engelwood logging division in the Nimpkish Valley on Vancouver Island made the presentation to Loki foreman Fred Schutter.
